No. 41.

THE LEADING CITY OF JAPAN IS NEARLY DEMOLISHED.

Osaka. With a Population of 350,000, is Radly Shaken Up by Old Seismus and Over Three Hundred Inhabitants Lose Their Lives.

Associated Press Pispatches.1

LONDON, Oct, 28 .- Information has been received here that an earthquake been received here that an earthquake occurred at Hiogo, Japan. It is rumored there was great damage done and loss river back to its old course.—Another the recent attack upon American sailors. The reply is couched in very strong

Hiogo is a sea port town on an island on the Hondo river, situated twentya large foreign traffic, with arsenals, a passed from the state department orders in reference to the matter are very strong.

Growing out of former troubles in the state department orders in reference to the matter are very strong.

Growing out of former troubles in the state department orders in reference to the matter are very strong. traversed by canals over which are more than 1100 bridges. In point of size it is the third or fourth city in Japan, but in social affairs, commerce and industry it

ceived tonight says that a severe shock of earthquake was experienced at Osaka and the destruction of both life and property was very great. So severe was the shock that a number of houses were crushed to death.

A large number of persons succeeded in escaping from their homes only to meet death in the streets, but there are no means at present of estimating the total loss of life. All telegraph wires are broken in the districts affected. Private dispatches, however, state that it is known that in Osaka alone the death list includes the names of 300 residents of that city.

COULDN'T GET MARRIED.

Secause of Illness and Smallness, Hence She Suicided.

BALTIMORE, Md., Oct. 28 .- The topic of conversation in Hebrew circles today is the tragic suicide of Miss Alice Hecht, who yesterday threw herself from the top of Washington Monument in Mount Vernon Square and, falling a distance of 184 feet, broke every bone in her body. She had relations in San Francisco'and was well known there. Various causes have been assigned for the act, though the family still insist that it was an accident. An intimate friend the young woman stated today that sickness and dissapointment were un-doubtedly the causes. For years Miss Hecht had been a martyr to dyspepsia, and had been advised by her physicians to take plenty of exercise. She had been until attacked by this trouble one of the most prominent features in local society. Her father, a promintnt busient, however, compelled her to withiraw from society, and this, together with the knowledge that all berfriends were gradually marrying, leaving her alone, produced melancholia. Then again her iminutive stature, often thoughtlessly referred to by ner companions, was in er opinion a bar to her marital aspirations. She was only five feet high and weighed but eighty pounds. The Hecht amily is one of the wealthiest and well known in Philadelphia, Boston and San

He Held on for Dear Life.

SHAMOKIN, Pa. Oct. 28 .- When the Chiladelphia express came into the Railroad station last night those on the platform noticed a man hanging to the flagstaff of the engine. His feet almost touched the wheels. When the train stopped he fell unconcious to the ground, but the doctors found that he was uninjured. When McLaughlin. While home from the theatre he started to ross Race street. The light on the engine obscured the approach of the exess. As the pilot was about to strike him he jumped as high as possible. descending, he clutched the flagstaff. The train was running thirty miles an bour and none saw the man's terrible into the car. herved him to hold on to a finish.

MINES AND MINING. What Arizona Miners are Doing-Mining

Gossip. Silver Belt: The output of the Resthe Silver Mining Co. for the past week ending today is six tars, (about 480 ounds) making the total production to 4te 52 bars.—The Old Dominion Opper Co. resumed smelting on Thurslay, after a few days idleness. They ope to receive sufficient coke to keep heir furnaces running regularly.

Citizen: The latest from the Olive ells of the whole shaft of the Lottie being in ore, and increasing in richness with greater depth. Eight new men are working in the ledge, the ore of which is running of high grade. All under \$40 a ton is regarded as refuse.

He Swindled a Mining Company.

LONDON, Oct. 28 .- At an examination bankruptcy proceedings today, of the orado. U. S. A., Thomas Gilbert, trigues. ecretary of the company, gave evidence before the court. Immediately after the taking of Gilbert's testimany he was arrested upon the charge of misappropriating the company's funds.

Gilbert contended that the \$20,000 he was charged with embezzling had sen sent to the United States with the owledge of the company, in order to complete the title to the property.

To Carry . n the Indian Schools.

CLEVELAND, Oct. 28 .- At today's sesin of the American Missionary Assoation a resolution was adopted setting th the probability of the withdrawal in the near future of the Government perpendicular to the schools main aned by religious societies among the adians, and providing for the apalment of a committee to co-operate aising funds for this important work, sel.

the Will Not Accept the Responsibility of the Recent Murders in the Streets of Valparaiso, Nor Guarantee the Safety of United States Citizens.

associated Press Dispatches.]

Santiago, Chile, Oct. 28 .- The Chilan government has replied to Minister language and it is understood that it amounts to a refusal to accept the responsibility for the affair.

The state department at Washington has been notified, and it is thought that decisive action will be taken soon, as

The intendente of Valparaiso has refused to guarantee the safety of market boats coming to that city early in the morning from the United States war ship Baltimore, or the safety of the officers of that vessel, who come ashore There is a practical boycott

A Fight About Bottles. NEW YORK, Oct. 28.—It has developed that, at the convention at Philadelphia last week of the American Bottlers' Protective Association, it was decided to inaugurate a vigorous war in every state of the Union against 'second hand bottle dealers, who deal in bottles that should have been returned to the tradesmen from whom their contents were secured. New York has a state "bottle law" and for the past year the New York branch of the Association bave been after the second-hand men with a sharp stick. Over two hundred raids were made on warrants issued under the law, and the number of bottles so recovered was considerably in excess of

How to Exterminate Chinch Bugs. Kansas Cirv, Oct. 28.—Before the American Public Health Association today Chancellor Snow, of the Kansas State University, read a paper explain-ing the theory of the destruction of the chinch bug by the propagation of a deadly disease among them. This scheme was much talked of last spring. complete survey of the dam and canal It is now estimated that about 75 per site for the Santa Cruz Water Storage company. The work of surveying will be pushed and on completion work on cent of the field experiments had been thoroughly successful, though his agents had reported 90 per cent, The advisory council decided to hold the next convention in the City of Mexico.

A SMART MAN.

While the Agent's Back is Turned He Packs Off an Iron Mafe.

ATCHISON, Kan., Oct. 28.-While the central branch of the Union Pacific train was lying at Leonora at an early morning, the express messenger went out to help in switching, and after the train pulled out he discovered that somebody had gotten away with his safe, which contained a large amount of money. There is no clue to the robber.

A Twenty-Foot Spake.

On the banks of the Cedar river, about one mile northwest of Gladwin, a farmer keeps quite a number of hogs and pigs, which run in the field at their pleasure. A short time ago, says the Detroit News, he began to miss some of his young hogs. Night after night some of them would come up missing. He searched the neighborhood, but to no avail. Then he shut them up in a tight pen, but still the depredations went on, until at last he set a guard to watch for the thief. Night wore away and no one molested the pigs. It was just at the break of day, and as the watchman was about to seek repose he heard a commotion among the hogs. and on his approaching near to get a sight of the burglar he saw a monster snake crawling away from the pen with a shoat. With a stout ironwood handspike he killed the snake, and upon measurement it was found to be nineteen feet seven inches long.

Childs as a testimonial of his friendship and regard for her and her distinguished parents, is nearly completed, and was shown today to a few friends of the distinguished donor at the private offices. tinguished donor at the private offices of the prominent jewelry firm to which the commission was instructed. It is magnificent in design and appearance and of considerable value, although from natural motives of delicacy the amount represented in the gift is not made public. The same firm is also manufacturing the silver and gold-lined porridge bowl and spoon which the baby is to receive from Anthony J. Drexel. Both gifts will be ready for presentation in a few weeks.

LITERARY SOCIETY.

Lamson College Literary Society Adopts

By-Laws and Recieves New Members. The second meeting of the Lamson College Literary Society was called to order by the president at 7 o'clock last evening. After roll call and reading of the minutes of the last meeting, the committee on by-laws reported. The by-laws as drafted by the com-

mittee were adopted. The following program was rendered:
"Easter Morning," by Miss Jeanette
Williams; "God Save Our President,"
by Master David Gray; "The Soldier's
Dream," by Miss Ada Morrison; "Wandering Pussy," by Miss Ann Monihan;
"Bridget as a Schoolmistress," by Miss
Fannie Mognette; "The Coquette Punished," by Miss Eva Bondarant:
"Brother Anderson's Sermon," by Pro-

fessor E. M. Lamson,
Then came a "Lawsuit"—W. E. Peck vs. R. W. Sparks, which was continued

till next meeting.

Five new members joined the society.

The society then adjourned to meet in two weeks.

ELEANOR MERRIAM,

TIN ORE.

A Fine Specimen of Oxide of Tin at the Republican Office.

At THE REPUBLICAN office may be seen a fine specimen of tin ore, pre-sented by Mose Matthews. It comes from the Temescal tin mines of California, and it is worth the while of every prospector to examine it, for it is very probable that there are tin deposits in Arizona yet to be discovered. The spec-imen is in the form of a black oxide, and might easily be mistaken for a lump of black, crumbling iron ore, which a pros-pector would "horn," and finding no gold in it, would consider useless.

rain-making machine will be kept on every stock ranch, and then if Provilence should decide to starve our cows to death we could save their livee by working the machine and bringing rain." "A good idea," answered a prospector, to whom he was talking.
"But when it comes to rain machines, I already have one that never fails. is a dry washer. I never yet started out with my dry washer for a prospecting trip on the desert but what it rained every day."

Practical Writing. Now is the opportunity for all to get rid of the cramped, scrawly handwriting that has been a trial to themselves and friends, causing mental and bodily pain. The method taught by Professor Smith s so simple and easily mastered that there is no excuse for any one not be-coming a good writer. The professor comes to us with the highest co tions from the leading institutions all over the country. All material is furnished. No charge if not satisfied.

tirading on the new railroad goes on No one is busier than Conractor Toohey nowadays. He was in town today for a short time, looking up some more men and ordering supplie for the grading camp. It is evident that his orders are to hurry up, and it is also evident that no grass will grow Dillon & on the grade before the rails are put arrivals.

An Old Prospector.

Harry Watton returned yesterday to Phoenix, after a long summer trip to several states and territories. He has been in New Mexico, Colorado and Utah. and made quite a lengthy visit to his brothers, at Telluride, Colorado. He has concluded that he will try some more prospecting in Arizona, where he has already been so lucky, and will probably start out before long on a grand prospecting trip.

The Onyx Mine.

Dick Holmes came in yesterday from the Holmes & Woodson onyx mines, on Cave creek. There are three men at work there, and the deeper they cut into the translucent stone the finer and more variegated are the specimens obtained. Dick will return in a day or so, after transacting some business connected with the further development of that valuable property.

Barnard's Decision.

Judge Barnard's decision in the cattle trespassing case was full and clear, and settles for the first time a much mooted question between the cattlemen and ranchers. From the text of the decision it is evident that it was given after a careful and conscientious study of the

county in the fall of 1872, at the first election after Maricopa county was cut off from Yavapai. He ran against W. A. Hancock, and on being elected, he qualified and held the office, collecting delinquent taxes, etc., until just before the April term of court for the following year, when he resigned, and Judge John A. Rush was appointed to fill the office. The officers, territorial and county, who were elected at that first county

election were: Council, King Woolsey; assembly, Grant Oury; sheriff, T. C. Hayes; treasurer, A. Hamilton; probate judge, J. T. Alsap; county recorder, C. F. Cate; justice of the peace, M. P. At that time W. A. Hancock was postmaster and George Mowry was his deputy. The late Hon. C. A. Tweed was district judge and C. F. Cate was clerk of the court and ex-officio clerk ef the

board of supervisors, which was com-posed of C. H. Gray, William Kirkland and Gordon Wilson.

Shall We Drive Slow Poison From Our Breakfast Table-Alum and Ammonia in Our Bread. A nuisance that troubled England A nuisance that troubled England fifty years ago is now rapidly spreading in this country, that is, putting alum in the bread we eat. This question is causing a great deal of discussion at the present moment, as it is revealed that present moment, as it is revealed that the fluctuated, and closed \(\frac{3}{26} \) \(\frac{3}{24} \) lower than on Saturday. Receipts 1,963,000 bushels. Corn, cash, 5814 Pork, cash,

A FIGHT FOR LIFE.

vesterday sold for Dorris Bros, to San-ford W. Haines, five acres of land in Greenhaw's addition for \$1000. This firm reports business good with a start of the present moment, as it is revealed that alum is being used as a substitute for cream of tartar in baking powders. A story is told that a very large percents. and many of them contain both these pernicious drugs. Much timely alarm is felt at the wholesale use of alum in bread, biscuit and pastry. To young children, growing girls, persons of weakly frame, alum bread, eaten morning, noon and evening, is the most harmful. It is the small quantities, taken at every meal that do the mischief. Alum is chean, costing but two or three cents. St. Claire & Pratt have already moved some of their large stock into the adjoining building, yet their former main store looks as full as ever. They cut an arched doorway through the party wall between the two buildings, and the new move greatly improves the attractiveness of their store.

AN INHUMAN BRUTE

BROUGHT TO TRIAL FOR HIS IN-PERNAL CRUELTIES.

Poor Orphan Children Dying of Cold and Institention-Poor Orphans Kept in a State of Terror and Allowed to

Die by Starvation. ciated Press Dispatenes.)

Dunlin, Oct. 28 .- Startling testimony was given today at the trial of Rev. Samuel Cotton, rector of Carnough county Kildare, charged with criminal neglect and ill treatment of children in the Carnough orphanage. Cotton has conducted the affairs of the orphanage for many years and has received large sums

of money by subscription. The Children's society, during an investigation, found children emaciated and in a filthy ragged condition, covered with parasites. The toes of one it was testified were rotted off, and another a girl, had been chained by the legs to a log. The rooms of the orphanage were found in the filthiest possible condition, in the kitchen was found a baby six weeks old, covered with rags and dying of cold and inattention. Other children in the same apartment were crouched around a small fire almost frozen and half starved. All were weak and sickly with their growth stunted by the treatment received under Cottons manage-

The condition of the whole establishment was horrible. Some of the beds used by the unfortunate children were merely old packing cases and boxes filled with hay. It was also shown that the children were kept in a perpetual state of terror, and it is difficult to ima-gine a more deplorable state of things. Cotton was committed for trial.
